February 16th–17th
School Closed
- * **Student-led Conferences**
6th March
- * **Ogoh Ogoh Parade**
17th March
- * **End of Term 3**
17th March

Happy Birthday!

A very happy birthday to **Momo** (Reception), **Mia** and **Yuna** (Year 3), **Fynn** (Year 5), and to **Hitsuki** (Year 6) who all celebrated their birthdays in January.

Welcome New Staff to AHS

We are delighted to welcome two new members to the Amed Honeycomb School team this term. Ms Trisna joins our community as our school operator and teaching assistant. You may see her in the school office, supporting our Nursery and Early Years, or assisting in other classes across the school at different times. Her varied role helps ensure the smooth running of the school and provides valuable support to both students and staff.

We are also very pleased to welcome Pak Made as our specialist Bahasa Indonesia teacher. He will be teaching Bahasa Indonesia to students in Year 3 and above, as well as Pendidikan Pancasila for students from Year 1 upwards. Pak Made brings valuable experience and a strong commitment to supporting students' understanding of Indonesian language, culture, and civic values.

Supporting our Local Community

We are proud to share that resources have recently been purchased and donated to three local schools in our community on behalf of *Friends of AHS (FoAHS)*. These donations were made possible through the funds raised at the 2025 AHS Fun Fair. Thank you to FoAHS and to everyone in our community who contributed — this is a wonderful example of how our school comes together to support learning beyond our own campus.

EYFS

Early Years

This month, the Early Years students have been learning about toys. They were excited to share their favourite toys and learn about toys and games from around the world. We also practised playing a few traditional Indonesian games, such as Engrang, Kelereng/Gundu, and Goak Maling Taluh (a traditional Balinese game). It was a wonderful experience for them.

In Bahasa Indonesia, they learned about consonant letters, specifically b, c, and d, and explored words starting with these letters, such as "c" for cicak. They continued to develop their understanding of numbers, building on their knowledge of numbers beyond 10.

In Phonics, they are currently learning Phase 3 and will continue until the end of the term.

Well done, Early Years! We're looking forward to seeing what February brings! 😊

Key Stage 1

Year 1/2

During January, Year 1/2 students have been busy with hands-on learning across inquiry and Maths. In inquiry lessons, students explored different materials through a "mystery box" game, guessing materials by touch, as well as an object-hunting activity around the classroom. In Maths, students created jellyfish to practise skip counting by 2s, 5s and 10s, with Year 2 extending this learning to counting in 3s.

Key Stage 2

Year 3/4

This term, Year 3/4 students have been using new classroom tablets to support learning. They are being used for maths games, reading non-fiction books about sound and light, and sharing photos of completed tasks on Seesaw.

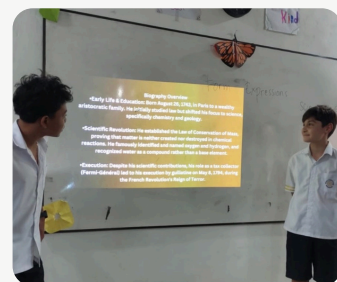

Key Stage 3+

Years 5/6 & 7/8

In Grade 5/6 English we have started learning about Poetry and the elements of Poetry. We have also began learning about Gratitude and being thankful.

In Year 7/8 English we are also learning about Poetry and language techniques. In Humanities we are learning about History and are exploring the Qing Dynasty of China. In Mathematics students have been measuring the length of objects and finding the mean, median and mode. In Science the students have been researching the scientists who discovered metalloids.
